

AGILE™

firstoffice™

AGILE

First Office introduces Agile, an ergonomic mesh back chair designed for personal fit and comfort. A high level of adjustability offers a custom fit, and breathable mesh circulates air for comfort. Agile is designed to scale in features and upholstery options to support open plan, active environments, collaborative conference and private office settings.

A Lumbar Support and Breathable Mesh

Agile allows you to adjust the lumbar support while seated, providing you proper lumbar positioning for your body size and type.

B Personalized Fit

Over ten passive and active adjustments can be made with Agile to personalize it for every individual user. Adjust Agile to fit specific body sizes, types and work styles for more energy and support throughout the workday.

C Open Plan

Agile's slim profile design and modern personality makes it a perfect fit for open plan areas. Equipped with multiple controls and adjustments, Agile is ideal for high task use and also supports a variety of focused and collaborative work environments.

HEADREST OPTION

PERSONALIZED FIT

SYNCHRO MOTION

Full range of motion for passive ergonomic support, giving you all-day comfort. Control provides four tilt locking positions.

FRONT MULTI TILT LIMIT

A tilt position limiter allows the user to select a desired range of tilt motion. Position 1 allows for full range of tilt. Position 2 limits tilt travel to 2/3 of full range tilt. Position 3 limits tilt travel to 1/3 of full range tilt.

TILT TENSION

Tilt tension adjusts for recline action perfectly fitted to your body type.

ADJUSTABLE HEIGHT ARM

Arm height adjusts to support keyboarding and other seated tasks you accomplish throughout the day.

SEAT SLIDER

Seat slides to the proper depth to support your height and proportion.

PNEUMATIC HEIGHT CONTROL

Chair height adjusts to a proper working height.

LUMBAR CONTROL

Lumbar control adjusts while seated to position it properly, supporting your lower back.

MESH BREATHABILITY

A breathable mesh back provides more air circulation and temperature control for all-day comfort.

ROTATING ARM PADS

Arm pads adjust in and out for proper support with keyboards, mouse or pen use.

HEADREST TILT

Head rest tilts and height adjusts for a personalized fit.
